

HDCi® LX3 High Density 2U Patch Panel

An innovative 2U, 19" rack mountable patch panel, designed for use in high density applications. It offers management of up to 288 fibres using MPO/MTP® optical cassette modules with 24 fibres each and it's fully compatible with a variety of alternative HDCi® module options. This panel allows advanced cable management, providing an enhanced cable routing exiting the panel to the left or right and allowing cable assemblies to be routed up and across the front of the panel.

The MLX3 HDCi® MPO/MTP® modules which are compatible with LX3 panel are designed for the transition between MPO/MTP® and standard LC connectors. They have a small form factor design and LX3 panel can house up to 12 MLX3 modules in 1U height. They come with 6 low loss LC quad flangeless adaptors on the front and 2 MPO/MTP® on the back side. They contain 100% factory terminated and tested LC to MPO/MTP® fanouts.

The combination of LX3 panel and MLX3 cassette modules is an ideal solution for high density applications. Their plug and play design meets all requirements for rapid deployment in high demand data centre environments.

Features

- 2U height
- 19" rack mountable
- Metal construction
- Can house up to 12 MLX3 modules allowing management for up to 288 fibres
- Compatible with multiple HDCi® module options (MPO/MTP®, adaptors, etc.)
- Saves installation and reconfiguration time
- MLX3 MPO/MTP® cassette modules are 100% factory terminated and tested offering low loss performance

Applications

- Data centres
- High density applications
- Telecommunication networks
- Enterprise Networks
- Central Offices
